

Gibson Island Clean-Up Event & Rehabilitation Project Launch

Paringa Rd, Murarrie

EARTH DAY

Sunday 22nd April 2018

9am-11.30am

Come to the first clean-up event at Gibson Island

Local industries are invited to contribute to the environmental and social health of this industrial region and the significant estuarine areas of Aquarium Passage. Celebrate international *Earth Day* by providing much needed attention to this key area. Bulimba Creek Catchment is hosting this clean-up event and launching an exciting revegetation and rehabilitation project for the area.

Your involvement will help:

- protect threatened wildlife including nesting birds, mammals and marine species
- protect the mangrove-lined waterway from erosion and sedimentation
- prevent sedimentation and potential pollution from overall industrial precinct and roadway

There's many ways to get involved. Contact us
