B4C Landcare Services Capability Statement

*Providing Specialised
Ecological Services*

About B4C

The Bulimba Creek Catchment Coordinating Committee Inc. (B4C) operates as a community-driven Social Enterprise in the Greater Brisbane area. As a Social Enterprise, we reinvest a proportion of our surplus in supporting the environment and the community.

The success of this organisation has been achieved to a major degree by the efforts and outcomes of the *Landcare Services Unit* (LSU).

B4C LSU is a professional team of accredited and experienced vegetation rehabilitators who deliver sensitive and quality outcomes. The aims of Landcare Services are to perform ecologically beneficial rehabilitation, adding to public and landscape amenity, ecological corridors and habitat enhancement.

Not being your usual contractor, we provide specialised ecological services which will complement and enhance existing rehabilitation and landscaping projects.

Supporting the environment and the community

Surpluses we make support the community and environmental work of our group and our network organisations, including Brisbane Catchments Network Inc.

Current activities undertaken by B4C include:

- Supporting bushcare and catchment groups, and community networks city-wide.
- Community nursery and depot which caters for a wide variety of community and referred volunteers including community service, corporates, disability groups, and volunteer support services.
- We run our Sustainability Centre with corporate partner Powerlink, developing a 2 hectare education and training centre including a sustainable home (office), native plant nursery, community gardens, permaculture and sustainable technologies displays.
- Learning Network – a community and schools program to introduce healthy food gardens and nature-based projects including property and revegetation plans, eco workshops, presentations, art projects.
- Revegetation Rehabilitation Programs – working catchment-wide in Brisbane City and Greater Brisbane area.

Our Achievements include

- Preferred Supplier for Urban Utilities- working under a “Shared Value Creation” contract as preferred supplier of vegetation rehabilitation and landscaping for the Greater Brisbane Area – 2011-2021 ongoing
- Preferred Supplier for Brisbane City Council, Redland City Council and Scenic Rim Council – for rehabilitation works
- Oxbow Wetlands – Lease with TMR. Rehabilitation and property plan under an memorandum of understanding with stakeholders – TMR, Powerlink, Energex and SEQ Water
- Tingalpa Wetlands Recovery – commenced in 1998; funding from Landcare Australia – 2005-2010; funding from Everyone’s Environment Grant 2014; BCC Grant 2014; SEQ Catchments Grant 2015-2016
- Port of Brisbane Partnership since 2013 – working to improve habitat on several sites.
- Gibson Island Rehabilitation Project— since 2018; working with 10 industrial partners to revegetate (over 7,000 plants so far) along Bulimba Creek at Paringa Rd, Murarrie.
